PROGRAM VISION AND MISSION

Vision for the Future

Our vision is to build an organization that focuses on prioritizing individual employee needs in order to provide each team member with a supportive, individualized and purposeful work experience.

Mission Statement

We exist to meet the unique needs of every individual staff member and resident by providing a caring and supportive environment where people are always treated like people and everyone is given the personalized attention they need to live, work and grow as human beings.

Employer Branding Promise

As a valued member of our organizational family, we make this promise to you:

We will work diligently to provide you with a caring and supportive work environment where your individual talents and skills are welcomed and celebrated by the entire organizational family.

We strive to foster an atmosphere of trust and safety where people can connect and share in a common sense of purpose with each other and the organization as a whole.

We truly value your individual experience and we will ensure that you receive the personalized attention that you need as you learn and grow within our organization.

Finally, we will work closely with you to help clarify your long term personal and professional goals, while consistently recognizing and celebrating your everyday successes along the way.
